Special Art Project Commemorates 9-11 at Holmes

Special thanks to Mr. McCormick and his 8th grade Art class for their work in assembling the 9-11 Project at school this past Tuesday. The 8th grade art class with Mr. McCormick created an installation art piece over the lunch hour with the help of the entire Holmes Junior High student body. During Tuesday's three lunch blocks, the 8th class oversaw a small table with various drawing materials, markers, pens, pencils, etc. All HJH students were able to create small pieces of artwork on roughly 800 post-it notes(perhaps a better way to think of these small individual pieces is calling them mementos/ thoughts/ reflections/poems/ messages). The class, along with Mr. McCormick then assembled the notes in the hallway into the simple, yet elegant, iconic, and uplifting silhouette of the Twin Towers. We feel this was a wonderful way to allow students to reflect on the tragedy and remember those who lost their lives in it. See photos at this link under **Holmes 9-11 Project News Flash**
